

SOS MEDICA MONGOLIA UB INTERNATIONAL CLINIC

SOS Medica Mongolia UB International Clinic is a private general practice clinic with 24 hour emergency services. We operate on a prepaid membership basis for permanent residents in Mongolia, but also service tourists and business travelers in need of medical help whilst in country.

Experienced and dedicated, our nationals and expatriate doctor are at the heart of all clinic operations. Patients benefit from the richly diverse and unique experience of our multi-national team of professionals who will provide our patients with the highest standards of international medical care.

OUR CLINIC CAPABILITIES

- Annual health check-ups
- 24 hour Emergency care
- State of the art emergency equipment
- International standard medications
- Own ambulance for transport
- Audiometric testing
- FIRST AID TRAINING course: attendance certificates and manuals for all trainees

EMERGENCY EVACUATION AND REFERRALS

The clinic is supported by the International SOS 24 Hour Alarm Centre in Beijing. The Center provides a 24 hour, year round service and will assist in managing medical evacuations and referrals.

Should a medical emergency arise, we provide initial stabilization in our clinic emergency unit. We have a fully equipped resuscitation unit with the first pumped oxygen system in the country. Then, if indicated, the patient may be evacuated locally or overseas to the nearest center of excellence. Our team of National and Expatriate medical professionals provides the only private professional medical evacuation service in the country.

Should our patient need specialist opinion and further treatment, we arrange referrals to medical specialists locally or outside Mongolia when medically indicated. The service is provided in line with the individual's medical insurance and with coordination from International SOS Beijing 24-hour Alarm Center.
